EDMONTON, TUESDAY, SEPTEMBER 9, 1913.

TWELVE PAGES

BOY IS THE VICTIM OF FRIGHTFUL CRIME

FINANCIAL SYSTEM OF UNITED STATES REASON FOR PANICS

Democrats Declare it Responsible for All in the Last Half Century.

ADMINISTRATION BILL PRESENTED TO HOUSE

Representatives Say Provisions of Measure Likely to Cause "All Business to be Disastrously Affected."

Washington, Sept. 8.—The administration currency reform bill as approved by the democratic caucus was referred to the house today from the committee on banking and currency by Chairman Glass. A voluminous report including a detailed analysis and criticism of the theory of the bill, accompanied the measure, setting forth the views of the democrats on the measure.

Representative Hayes of California presented a report from the republicans criticizing the measure and proposing various amendments.

The majority report declared: "It is intended to bring about necessary changes in the present banking and currency system of the United States and to correct existing shortcomings in the banking and deposit system. It aims at the rectification of the essential defects of the present system although it does not seek to make all the innovations that might from a fixed standpoint be deemed desirable."

Some Fundamental Elements.

Reviewing the arguments against the so-called "gold standard" plan outlined by the national monetary commission at all earlier bank plans suggested, the report said:

"After looking over the whole ground and a consideration of the various arguments for and against the gold standard, the committee on banking and currency is firmly of the opinion that effective legislation on banking must include the following fundamental features in which it will be indispensable in a measure likely to prove satisfactory to the country."

Creation of a kind of mechanism for the extension of credit, associated with local business assets and which desire to liquidate them for the purpose of meeting legislative commercial, agricultural and industrial demands on the part of their clientele.

With the creation of the present bond, secured currency with suitable provision for the fulfillment of government obligations to bond-holders, coupled with the creation of a safe, facely flexible currency to the market.

For Foreign Business.

"Provision should be made for extension of American credit facilities to enable us to meet our trading obligations to our trading partners to the extent that our trading may be enlarged and that American business men in foreign countries may obtain the accommodations they require in the conduct of their operations."

"Beyond these cardinal and simple

(Continued on Page Seven.)

SAYS DUKE WENT OVER TO IRELAND

Labor Paper Publishes Statement that Duke of Connaught Made Secret Trip.

London, Sept. 9.—The Daily Citizen, a labor organ, announces that the Duke of Connaught crossed to North Ireland last night and precautions have taken to prevent the journey from becoming known. The Duke, it is said, has not yet had time to make his arrangements, but he has some connection with the Ulster agitation, as the Duke of Connaught has been mentioned as the first vice-roy of Ireland under Home Rule.

WOULD EXCHANGE HARRY HEDDER AND MRS. PANKHURST

London, Sept. 9.—Gable reports of the possible action of New York immigration officials against Mrs. Pankhurst, who has been for the expression that a deal is arranged between the United States and Great Britain whereby the British leader and others may be exchanged for the peace and quiet of their respective countries.

Rob Bank Safe and Then They Blow Up House

Entire Population of Wisconsin Town is Awakened, But Bandits Escape.

Madison, Wis., Sept. 8.—Robbers last night blew up the safe of the local bank, and then wrecked the building by exploding a heavy charge of dynamite beneath it. In the explosion the windows and the door of the main entrance of the bank were secured. The amount of plunder taken was not known.

MITCHELL HOME, TELLS OF EAST'S INTEREST IN WEST

Minister of Public Works Says Flow of Immigration Cannot Be Stopped.

HARVEST WILL END ALL TIGHTNESS FINANCIALLY

Stringency Not Result of Loss of Faith in Canada, But Because of an Unfavorable Market.

That people in the east are taking a direct interest in the progress of the west is well known today by Mr. C. H. Mitchell, minister of public works, who has returned from a two month's trip to the Maritime provinces. Mr. Mitchell spent some time at his home at Newcastle, N.B., and visited all the principal points in Nova Scotia and New Brunswick. Mr. Mitchell stated that everywhere he went he found people eager to obtain reliable information concerning the west, owing to the fact that the large amount of eastern capital which has been invested in the west has given them a great stake in the development of western resources.

Referring to the great flow of emigration from the Maritime provinces to the west, which has taken place in recent years, and which has already popularized some of the rural districts, the minister of public works stated that a feeling of regret appeared to exist in certain quarters that the people could not remain in the east longer. "No soot has been drafted to check the flow of emigration."

"I do not think any such scheme could possibly succeed," he said. Mr. Mitchell added, "the opportunities are undoubtedly much greater here than they are in the Maritime provinces."

Though trade conditions throughout New Brunswick and Nova Scotia are very good, the minister did not consider that there was any great inducement to keep the younger generation away from the west.

A maritime nation, Mr. Mitchell stated, existed in the east, that because the real estate business was not so brisk this season as it had been, and failed out of the west." This misconception, Mr. Mitchell did much to correct by pointing out, that although real estate was quiet, general business was better, and that had been overdone.

Value of Good Crop.

The people of the east, the minister added, did not understand how much a record crop, like that of the present year, meant to the west, and how quickly the west recovered any loss it had after the crop had been harvested.

The minister asserted that with the character of the west, any period of quietness, which might have existed, would be brought to an end.

In view of the rapid development of Edmonton as the centre of the fox ranching observations on fox ranching in the east and west, the minister stated, fox ranching has taken the place of fox hunting as the chief sport of the west, and are of peculiar interest. In the Maritime provinces, the minister stated, fox ranching has the largest area of land under cultivation, and is the chief sport of the west.

The financial stringency, Mr. Mitchell said, since some time in August, and his salary is \$2,000 a month, and the notwithstanding the mayor's definite statement that there would be no general expense, that the amount of the \$3,000 paid yearly to Mr. Chipman.

It appears that Mr. Murdoch asked the minister to make a statement as to what his salary would be made by Mr. Chipman for his opinion on these matters.

The mayor replied that there would be no additional expense to the city as all such expenses would be included in the salary voted the consulting engineer by the city council.

Really an Assistant.

Commissioner Chalmers asked the minister if he had any objection to what would be made by Mr. Chipman for his opinion on these matters.

The mayor replied that there would be no additional expense to the city as all such expenses would be included in the salary voted the consulting engineer by the city council.

Now it develops that an assistant to Mr. Murdoch has been engaged by the city, and his salary since some time in August, and his salary is \$2,000 a month, and the notwithstanding the mayor's definite statement that there would be no general expense, that the amount of the \$3,000 paid yearly to Mr. Chipman.

It appears that Mr. Murdoch is to be retained as the consulting engineer, and his salary is to be \$2,000 a month, and his salary is \$2,000 a month, and the notwithstanding the mayor's definite statement that there would be no general expense, that the amount of the \$3,000 paid yearly to Mr. Chipman.

Three New Employees.

This makes three new city employees that have recently been appointed by the mayor while the pruning of other departments has been in progress.

Messrs. Tam and Grahame, who are in the payroll division, combined salaries of \$300 a month. The work he does done by them is supposed to be plainer of the Tam and Grahame scheme for Mr. Chipman, and according to Mr. Chipman's report he does not approve the Tam and Grahame scheme.

It is a striking fact that the majority of the employees report to the mayor, as far as known. Their work is done entirely outside of the offices of the city, and no recommendations of the city are made with their appointment. It is to be found on the minutes of the commissioners' meetings.

STILL ANOTHER POSITION MADE BY THE MAYOR

Charles R. Murdock Discovered to be Working as Chilman's Assistant.

LATORNELL AND PARSONS WOULD NOT ACCEPT HIM

Attempt Was Made to Have Him Put on the Staff of the City Engineer and Then at the Powerhouse.

Having secured the services of Willis Chipman as consulting engineer for a period of two years at a salary of \$3,000 per annum, the mayor has now authorized the appointment of another engineer, evidently an assistant to Mr. Chipman, in the person of Charles H. Murdock. At recent meetings of the commissioners matters in reference to the filtration plant, sewage disposal, etc., have been referred to Mr. Murdock. At present meetings of the commissioners matters in reference to the filtration plant, sewage disposal, etc., have been referred to Mr. Murdock.

"After looking over the whole ground and a consideration of the various arguments for and against the gold standard, the committee on banking and currency is firmly of the opinion that effective legislation on banking must include the following fundamental features in which it will be indispensable in a measure likely to prove satisfactory to the country."

Creation of a kind of mechanism for the extension of credit, associated with local business assets and which desire to liquidate them for the purpose of meeting legislative commercial, agricultural and industrial demands on the part of their clientele.

With the creation of the present bond, secured currency with suitable provision for the fulfillment of government obligations to bond-holders, coupled with the creation of a safe, facely flexible currency to the market.

For Foreign Business.

"Provision should be made for extension of American credit facilities to enable us to meet our trading obligations to our trading partners to the extent that our trading may be enlarged and that American business men in foreign countries may obtain the accommodations they require in the conduct of their operations."

"Beyond these cardinal and simple

(Continued on Page Seven.)

BY ELECTION IS BEING HELD IN PRINCE ALBERT

W. G. McKay and A. Hall Are Candidates for Conservative and Liberal Parties Respectively.

Prince Albert, Sept. 9.—The by-election in Cumberland, rendered necessary by the annulled election of Mr. J. C. MacLennan, was held yesterday. Mr. MacLennan again contested the riding in the conservative interest and Deacon Alexander Hall, a son of a former Hudson's Bay trader, was elected for the Liberals.

The district is large and inaccessible, and up to midnight no news had been received from the polls. Deacon Hall will not be known for several days.

Value of Good Crop.

The people of the east, the minister added, did not understand how much a record crop, like that of the present year, meant to the west, and how quickly the west recovered any loss it had after the crop had been harvested.

The minister asserted that with the character of the west, any period of quietness, which might have existed, would be brought to an end.

In view of the rapid development of Edmonton as the centre of the fox ranching observations on fox ranching in the east and west, the minister stated, fox ranching has taken the place of fox hunting as the chief sport of the west, and are of peculiar interest. In the Maritime provinces, the minister stated, fox ranching has the largest area of land under cultivation, and is the chief sport of the west.

The financial stringency, Mr. Mitchell said, since some time in August, and his salary is \$2,000 a month, and the notwithstanding the mayor's definite statement that there would be no general expense, that the amount of the \$3,000 paid yearly to Mr. Chipman.

It appears that Mr. Murdoch is to be retained as the consulting engineer, and his salary is to be \$2,000 a month, and his salary is \$2,000 a month, and the notwithstanding the mayor's definite statement that there would be no general expense, that the amount of the \$3,000 paid yearly to Mr. Chipman.

Three New Employees.

This makes three new city employees that have recently been appointed by the mayor while the pruning of other departments has been in progress.

Messrs. Tam and Grahame, who are in the payroll division, combined salaries of \$300 a month. The work he does done by them is supposed to be plainer of the Tam and Grahame scheme for Mr. Chipman, and according to Mr. Chipman's report he does not approve the Tam and Grahame scheme.

It is a striking fact that the majority of the employees report to the mayor, as far as known. Their work is done entirely outside of the offices of the city, and no recommendations of the city are made with their appointment. It is to be found on the minutes of the commissioners' meetings.

CANADIAN KILLED IN ALPS.

Geneva, Sept. 9.—A French-Canadian, Miss Hélène Iglier, lost her life while attempting a difficult climb in the neighborhood of the Matterhorn into a deep crevasse. Her companions were unable to cover her. Her body was unable to cover her.

The work he does done by them is supposed to be plainer of the Tam and Grahame scheme for Mr. Chipman, and according to Mr. Chipman's report he does not approve the Tam and Grahame scheme.

It is a striking fact that the majority of the employees report to the mayor, as far as known. Their work is done entirely outside of the offices of the city, and no recommendations of the city are made with their appointment. It is to be found on the minutes of the commissioners' meetings.

NEW YORK STOCKS.

New York, Sept. 9.—Impresario stocks ground slowly yesterday. Interest was diverted from the grain and cotton markets. Reactions among such stocks as Union Pacific, Reading, New York Central, Atchison, St. Paul and Steel, which fell a point or so, were regarded as negligible to sell.

The widest movements were among the securities, particularly the patriotic issues, which advanced 1 to 5 points. The rise in these stocks failed to influence the leaders, a fact which led to some professional sellers. Trading was dull, however, as no appreciable weakness on the decline. Late in the day the market stiffened, recovering part of the losses.

There were no let up in the pessimistic talk from the corn and cotton bulls, and the excited advance in cotton options tended to discourage buying of stocks.

The monthly report of the copper producers today showed no reaction from the market. Even the copper stocks showed no improvement after publication of the figures, which were distinctly favorable. The market was held, however, predicated, and the decrease of 15,280,000 pounds in stocks on hand fully came up to expectations. Production ran behind schedule and actual stocks were very near to the maximum represented in years. Prices of the metal worked both at home and abroad. The hounds moved rather irregularly, but showed a general upward trend. Total sales value \$1,400,000.

A block of \$100,000 government two's sold at 98 1/2, an advance of 1/2. Parana three coupons advanced 1/4 on call.

WINNIPEG GRAIN.

Winnipeg grain market, which had been quiet yesterday, was active and prices easier. Liverpool cables were lower and with favorable weather conditions and heavy receipts the tendency for grain was upward.

Agricultural markets were steady in sympathy with grain markets.

Winnipeg opened 4 lower and closed 5 to 5 cents down.

Liverpool cables closed 4 lower. Paris unchanged to 1/2 lower; Berlin 1/2 lower; Amsterdam 1/2 lower.

The demand for the cash wheat was fair and good offerings, while it was said some few export transactions were made. Cash wheat closed 3/4 higher for contract grades.

Oilseed market was continued strong, while flax advanced 20 cents on all months from opening points.

There was a good demand for cash

Montreal Stock Market.

Montreal, Sept. 9.—Stocks were moderately active on the local board yesterday. The market showed steady gains, due to the fact that supplies for local account were scarce on account of the large amounts of beef cattle being purchased for the United States market. Prices advanced on an average of 2 1/2 to 3 1/2 points.

A special freight train consisting of 20 cars of live beef, will leave Montreal on the Grand Trunk railway to Boston, New York and Boston. Also a few for Jersey City, N.J.

Receipts of butcher cattle, 1,600; 1,600 marked stronger and showed an advance of 1 1/2 to 2 1/2 points. Best butcher steers 175 to 600; medium 525 to 550; butchers light 365 to 400; heavy 500 to 550; best butcher cows 550 to 675; medium 450 to 500; best heifers 500 to medium 525 to 425.

Receipts, sheep and lambs 2700; demand road; market steady. Old sheep 4 to 4 1/2 and lambs, Quebec 5 1/2 to 6 1/2. Western 5 to 6 1/2 per pound.

Receipts of hogs 14,000, market steady; select 1,050 to 1,000; sows 865 and 850; all weighed off cars.

Receipts, swine 800 head; market strong, demand good. Calves 3 1/2 to 4 1/2 per pound.

Montreal Stocks.

Montreal, Sept. 9.—Cotton and iron were the conspicuous features in yesterday's stock market, the former rising 1 1/2 to 2 to a new high record of 1,913. The market was held, however, which set in for a new low for the movement of 44 3/4-4, or two points below last week's record. Both stocks were active, however, showing a new high, approximately 1,200 shares of each changing hands and the aggregate for the two resounding more than half that of the previous day.

The source of the buying of cement remained as much a mystery as the source of the selling of iron and the cotton market. The two issues continued to furnish an active and solid market with something to talk about.

Montreal Produce.

Montreal, Sept. 9.—Butcher is fairly active and firm. Cattle is rather quiet but the tone of the market is firm. Beef cattle, for the week, 1,600 to 1,600, showing an increase of 1 1/2 to 2 1/2 as compared with last week, and an increase of 12,973 with the same week last year. The demand for eggs was fair.

Cheese—Finest yesterday 13 1/4 to 13 1/2; Eastern 12 7/8 to 13 1/8.

Butter—Gloucester, creamery, 25 1/4 to 26 1/2; Cheddar, 24 1/2 to 25.

Eggs—selected 29¢; No. 1 stock 26¢; No. 2 stock eggs 20¢.

Pork—Heavy Canadian short mess hams 35 to 45, pens 30; short end back 45 to 55, pens 25.

LONDON STOCK MARKET.

London, Sept. 9.—The market, after a long period of quiet, was active yesterday. Discount sales were harder on the continued foreign demand purchases.

Yesterday stocks bought \$9,000,000, while the remaining \$1,000,000 of South African gold offering in the open market.

The stock market was quiet as no dealers were principally engaged in arranging the mining caravans. Copper stocks were buoyant in sympathy with the metals. The other sections were quiet.

CHICAGO CATTLE.

Chicago, Sept. 9.—The cattle market, which had been quiet during the forenoon, became more active during the afternoon.

Trading was quiet, however, and the market was limited throughout the session and the market closed inactive.

CHICAGO GRAIN.

Chicago, Sept. 9.—The wheat market, which had been quiet during the forenoon, received some help from the cool strength, but the dry weather aroused some particular interest in the market and also gasoline. Primary arrivals were not as large as a year ago. The lessening was due entirely to the willingness of the market to take in the small wheat, whose shadow of early and most severe winter comes was the cause of a little weakness early, and there was a day later owing to the slowness of milling and shipping.

NEW YORK METALS.

New York, Sept. 9.—The firm of Smith, Edwards & Company, 111 Madison Avenue, 23rd floor, telephone: Electricty 16,687; 1616; Casting 1620; 1632; London dry, 1700; Casting 1630 to 1632; London dry, 1700; Spot 124,175; od. Futures 173, 158 to 170; The weak, Spot and Selby 125 to 127; London dry, 1235 to 1247; London dry, Spot 1193; Futures 124, Lead quiet 470 bid; London 220, 128.

WINNIPEG CATTLE.

Winnipeg, Sept. 9.—For three days ending September 6, cattle weights at the market were very light, and the market was quiet.

Trading on Monday was quiet and cattle prices unchanged, cheese, butchers, steers being same as at end of last week, 10 to 12 1/2, good cows and heifers 500 to 1,025.

Although hog receipts were light, there was no change of quantity, choice, butchers, steers, hams, bacon, hams, hams and hams, and hams and hams.

Trading quotations were as follows:

Cattle, choice butcher steers 550 to 575; 1,000 to 1,025; 1,050 to 1,075; 1,100 to 1,125; 1,150 to 1,175; 1,200 to 1,225; 1,250 to 1,275; 1,300 to 1,325; 1,350 to 1,375; 1,400 to 1,425; 1,450 to 1,475; THAW IS UNDER THE EYES OF 3 OTTAWA POLICE

Inspector in Charge of Him in Interest of Immigration Department.

LAFLAMME ASKS JEROME BE PERMITTED TO SPEAK

Case May Prove to be Unique in Still Another Manner. Greenshields Says Chances of Freedom Improved.

Montreal, Que., Sept. 8.—Mrs. Mary Conroy, The Queen of Harry Ritz, arrived in Montreal this morning and registered at the hotel Ritz Carlton where her son-in-law and daughter, Mr. and Mrs. G. L. McElroy, are staying.

Mr. Conroy did not discuss the present status of the case, but expressed the belief that her son would receive justice at the hands of the law and that he who would win his freedom.

She would not express any opinion of the decision in the case of Jerome.

It is stated that Mr. Jerome will be allowed to plead in the special court when the trial will come up for hearing on Monday next if he wishes to do so.

Up to the present, however, the only application in this connection has come from the defence side and not from the prosecution or the Canadian lawyers representing United States interests.

Thaw Under Guard, Ottawa, Sept. 9.—Three members of the Dominion police of Ottawa, a sergeant and two constables, have been detailed to guard Harry Thaw at Ottawa.

Inspector White, in charge of the police here in the interest of the immigration department, says Thaw will remain at Cooteckle until Sunday, when he will be taken to Montreal for the court proceedings.

So far as the departments at Ottawa are concerned, no action in the Thaw case may be anticipated until the court of king's bench begins its trial.

So far as the immigration department is aware, no appeal has been entered against the deportation order. Mr. J. E. McElroy, of the firm of Doherty, who is not in Montreal. In any event, it would be allowed upon the court's decision to deport the condemned man to the United States.

Along however, there is a feeling that the constitutional question is one that will stand for much argument. The question is whether the president of the United States has the right of the interpretation of the constitution. That it may be taken to the privy council as the highest court in the empire is considered by many as the best of the fundamental grounds upon which the attack is based and the unlimited resources of those who have initiated it.

Montreal, Sept. 9.—If the judges of the court of the king's bench prove willing, the hearing of the Thaw appeal against the immigration act may prove to be unique in still another manner.

When formal application was made for a writ of habeas corpus directed to the immigration offices last Friday, Mr. Lafallanne also had a lengthy private conversation with Judges Gervais and Galt, who also agreed in view of the special situation, that the case came before the courts. Mr. Jerome should be allowed to speak.

Although American lawyers have not yet been retained, Mr. Lafallanne considered that under the circumstances this courtesy might be extended to Mr. Jerome. As the judge, however, was shown to be in part from the usual custom, it is practically within the jurisdiction of the court to permit this if it sees fit, when the trial of the other man there will be evolved in the already unique Thaw case.

It is a pity to note in the connection that some 50,000,000 francs of the Greenshields, K. C., was exacted on a famous forgery case in New York. At that time, although he was the chief counsel for the defense, he was not permitted to take no part in the proceedings before the court. By way of returning good for evil, Mr. Greenshields has a writ of habeas corpus directed to Lafallanne, that Mr. Jerome be permitted personally to handle the case of New York interests before the court in question.

According to Mr. Greenshields, one of the main hopes of the defense aside from the fight against the immigration act is to get a new extradition treaty. They are asking for a new one, in the proceedings taken by the immigration officials. It is contended that they did not have a formal order from the minister of justice, but that in any event the defense claim is proper under the act when the alien has been held in the country 10 days.

Proper Authority Denied. Thaw had been in Canada over 16 days and had been held 10 days. Now, they are asking for a new one, in the proceedings taken by the immigration officials, and T. H. McElroy, K. C., has made an affidavit to the effect that the immigration men took Thaw in charge with the proper authority, and that he was being held in Canada.

The sole reason given to Judges Gervais and Cross in the informal application by Thaw's counsel, before the matter was brought into chambers Friday, was that the Canadian government did not accept in its equivalent of the clauses in the treaty of Versailles, 1783, the Treaty of Chant, 1814, and the Ashburton Treaty, 1842, as well as its inter-

COMMISSION OF LABOR IN CITY

Are Going Through to G.T.P. Railroad Camps to Investigate Conditions.

Members of the Thaw Canadian Labor commission arrived in Edmonton this morning en route to towns along the lines of the Grand Trunk railway, where construction work is being done, to make a general investigation will be made. The commission was appointed December, 1912, and has been investigating throughout that province ever since. It will conclude its sitings at Victoria inside of a week.

The members of the commission are: H. S. Parsons, Goldring (chairman); A. M. Hart, W. H. McElroy, G. L. McElroy, G. E. McElroy, Vernon, R. A. Stoney, New Westminster; F. R. McEvans, Victoria, New.

They are a day behind their schedule, it having been intended that they should meet at the Canadian Pacific station, but the delay was caused by the mid night stay near Field, B.C., which held up all traffic on the line.

At 9:30 this evening the party leave for the west and will stop at Tees Junction, Fort Macleod, Lethbridge, Fort Macleod, Barkerville, (Quebec), 150 Mile House, Clinton, Lillooet, Askerot. It is expected they will compare favorably with the reports made by the commission.

The committee reviewed the bill section by section, setting forth at great length the probable operation and results of the bill.

Republicans Make Report.

In their minority report on the bill the Republicans of the committee point out that they are in favor of the bill, but do not consider it to be the best of the measure.

They found the democrats of the committee so bound by their cause, action, that they could not consider amendments to the bill if adopted, would have eliminated its unsound and questionable provisions.

They suggested that the provisions concerning the banks to make possible for the capital stock to be issued by federal reserve banks on pain of forfeiture of their charters, was of doubtful constitutionality and wholly unnecessary.

It is a general opinion that if the bill is passed, the banks will probably participate if not, should the banks refuse to enter the system, all business would be discontinued.

They also suggested that the provision making the new federal reserve "obligations of the United States" provide for the powers of the federal reserve were great, and that the bill is a great danger as the bill is now drawn, that the banking business of the country may be used for partisan political purposes.

The progressive views of the currency question were set forth in a report on the Glass bill filed several days ago by Representative Lindberg of Minnesota, the progressive member of the committee.

At a result of the thorough inspection of rootstocks that is carried out daily, the report shows that during the month there has been a marked increase of different kinds of varieties condemned as unfit for public consumption.

BREAD BY-LAW DOES NOT PROVIDE FOR WRAPPING

In the monthly report submitted to Mr. B. W. J. Vining, the food and drug director of the department of agriculture, it is said that the new bread by-law in that it does not provide for the wrapping of bread.

This is the first time that the bread of the food inspector, and the committee saw fit to cut it out on the solicitation of the department.

The report puts emphasis on the large number of flies that the confectionery shop has been infested with, and the flies have been kept under control, although not entirely excluded.

It is also reported along other lines that sanitary regulations are being reasonably well enforced, and when owners of food places are found to be in violation of their premises, they will have willingly done so.

As a result of the thorough inspection of rootstocks that is carried out daily, the report shows that during the month there has been a marked increase of different kinds of varieties condemned as unfit for public consumption.

MANY COLORED PEOPLE AT FUNERAL OF J. BONDS

Colored Citizen of Edmonton, Held in High Respect by His People, Interred in Cemetery.

Possibly the largest number of colored people in Canada in winter came to the cemetery, which was packed at the last solennities over the body of James Bonds, a well known and highly regarded man, who died on Friday night.

The report puts emphasis on the large number of flies that the confectionery shop has been infested with, and the flies have been kept under control, although not entirely excluded.

The corse, numbering 100 persons, was attended by large numbers of citizens, as it passed to the cemetery, where Prof. G. C. Galt, general manager, and his wife proceeded to the Catholic cemetery.

The floral tributes of friends were many, and the members of the Western Porters' association and the Douglas club of both of which organizations the deceased was a respected member.

SUSPECT IS CAUGHT

Yorkton, Sask., Sept. 9.—William Schwuck, the alleged murderer of F. P. N.W.M.P., yesterday, at Shesho, a small town in the north of the province, in the centre of a large Indian colony in which the fugitive sought to hide.
